XLG-20-L

https://www.mean-well.ru/store/XLG-20-L/

Features

- Constant Current mode output
- Wide input range 90~305VAC (Class I)
- Built-in active PFC function
- · Class 2 power unit
- No load power consumption <0.5W
- · IP67 rating for indoor or outdoor installations
- 3 in 1 dimming function (Isolation design)
- Life time>50,000 hours and 5 years warranty

Applications

- Street lighting
- Architectural lighting
- Low bay lighting
- Floodlight lighting
- Industrial Lighting
- Type "HL" for use in Class I, Division 2 hazardous (Classified) location.

GTIN CODE

Description

XLG-20 series is a AC/DC LED driver featuring the constant current mode output. XLG-20 operates from 90~305VAC. Thanks to the high efficiency up to 89%, The entire series is able to operate between -40° C $+80^{\circ}$ C wide case temperature range with air convection. The design of metal housing and IP67 ingress protection level allows this series to fit both indoor and outdoor applications.XLG-20 is equipped with various function options, such as dimming methodologies, so as to provide the optimal design flexibility for LED lighting system.XLG-20 series comply with the latest version of IEC61347/GB7000.1 -2015 and UL8750 international safety regulations. The output and dimming circuit are also completely in accordance with the new regulations with isolation to ensure the safety of both user and luminaire system during installation.

21W Constant Current Mode LED Driver

XLG-20 series

TOTAL HARMONIC DISTORTION (THD)

※ L Model, Tcase at 75℃

EFFICIENCY vs LOAD

XLG-20 series possess superior working efficiency that up to 89% can be reached in field applications. % L Model, Tcase at 75 $^\circ\!{\rm C}$

Tcase (°C)

File Name:XLG-20-SPEC 2024-09-19
